

Healthcare Solutions

Gerflor[®]
the flooring group

Our History

THE DEVELOPMENT OF GERFLOR® GROUP

OUR GOAL IS TO OFFER MORE AND MORE GLOBAL SOLUTIONS.

Gerflor® is recognized as a specialist and one of the world leader in resilient flooring solutions. The group creates, manufactures and markets innovative, design-led and eco-responsible solutions for flooring and complementary interior finishes. Our ranges have become very famous brands in the PVC flooring industry, especially homogeneous products Mipolam®, Taralay® ranges and sport products Taraflex®.

Our brand is our promise and it grows through the positive experiences provided to stakeholders, particularly our customers and our employees around the world. We reaffirm that promise daily to anticipate and meet the specific needs of users, specifiers, installers and distributors wherever they may be.

GERFLOR® GROUP

ALL OVER THE WORLD

Worldwide presence and proximity to our customers through:

29 subsidiaries

19 manufacturing plants & logistic hubs

● sales offices

● manufacturing plants and logistic hubs

100 MILLION people daily live on a Gerflor® Residential flooring.

600 MILLION people daily travel on a Gerflor® Transport flooring

500 MILLION patients healed everyday on Gerflor® floors for Healthcare.

10 WORLD CLASS competition games played everyday on a Taraflex® Sports floor.

200,000 SQM Gerflor® floors and wall protections installed everyday.

6 MILLION children daily enjoy the benefits Taraflex® Sports flooring.

ENTRANCE MATS

Benefits: Eco-responsible

INDOOR AIR QUALITY

COMPOSITION

- **100% REACH** compliant
- **FREE** of formaldehyde
- **FREE** of heavy metals
- **FREE** of solvent

INSTALLATION

- **Innovative adhesive free installation systems**

RECYCLED CONTENT

- **100% REACH compliant** recycled content

RECYCLING

- **100% recyclable product**

LCA

LIFE CYCLE ANALYSIS

- **Eco-designed** according to a product specific Life Cycle Analysis
- **Product specific EPD** (Environmental Products Declaration) available
- **Manufactured in an ISO 14001 and ISO 50001** certified site
- **Contribution to many Green Building Schemes** (LEED, HQE, BREEAM...)
- **Exclusive surface treatments** to reduce drastically the use of chemical product and water and ensure the lowest environmental impact

INDOOR AIR QUALITY

- **TVOC emissions 10 times better than norms requirements** (TVOC < 100 µg/m³ after 28 days)
- **TVOC < 10µg/m³ after 28 days** for all products treated Evercare™ / Protecso[®]2
- **Floorscore certified**
- **M1 certified**
- **Comply with AgBB protocol**
- **No formaldehyde emission**

WELLNESS

- **Health:** Antibacterial activity (inhibits growth > 99%)
- **Safety:** Anti slip performance
- **Comfort:** Walking comfort and impact noise reduction

TVOC

All materials emit volatile substances known as VOCs (Volatile Organic Compounds). Our flooring products are routinely assessed for compliance with ISO 16000 requirements after 3 and 28 days. The result is that Gerflor products are one of the lowest emissions on the market.

INSTALLATION

Gerflor has pioneered unique, patented loose-lay systems that minimise or completely eliminate the use of adhesive.

REACH

REACH is the regulation for Registration, Evaluation and Authorisation of Chemicals in the European Union. REACH is the only official regulation in European Union (and the most demanding one) to define if a chemical material is safe or not. It is not only European but also taken into account by the most famous International Building Certifications, like the new version of LEED (LEEDv4), to assess the safety of a material.

FLOORSORE

FloorScore is a certification program developed by the Resilient Floor Covering Institute and Scientific Certification Systems. The purpose of this certification is to ensure that flooring products comply with indoor air quality emission standards. In order to get the FloorScore approval it must undergo stringent testing of products and on-site audit to prove it will promote healthy air quality once installed.

100%
RECYCLABLE

LEED (Leadership in Energy and Environmental Design) certification

issued by the USGBC (US Green Building Council), confirms that a building or a community has been designed and constructed using strategies to improve performance by saving energy, treating water, reducing CO₂ emissions, and improving indoor air quality. Our floorings contribute to building certifications (3 levels of certification: silver, gold, platinum) because:

- Low VOC emission (Floorscore® compliant)
- High recycled content
- Product specific EPD (Environment Product Declaration)

Benefits: Enhanced Hygiene

NEW GENERATION OF SURFACE TREATMENTS

EVERCARE™ technology, an exclusive patented Technology by Gerflor: ease of maintenance, no need for wax and polish for life, water and detergent savings, plus **3 additional benefits**:

1 STAIN SHIELD, BLOCKS EVEN THE TOUGHEST STAINS

Gerflor® floorcovering with EVERCARE™

The EVERCARE™ water-repellent effect prevents staining products from penetrating the materials (alcohol-based Eosin and Betadine, hydro-alcoholic gels, etc.), remaining on the surface.

Marker / Eosin / Betadine

STAINING TESTS

Other floorcovering

All other product on the market let staining product penetrate the floor covering.

AFTER CLEANING

RESULTS AFTER CLEANING

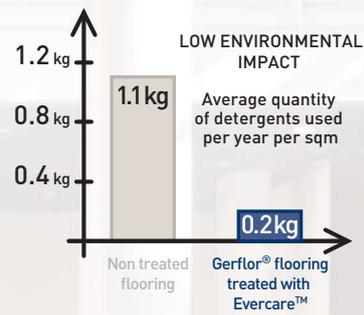

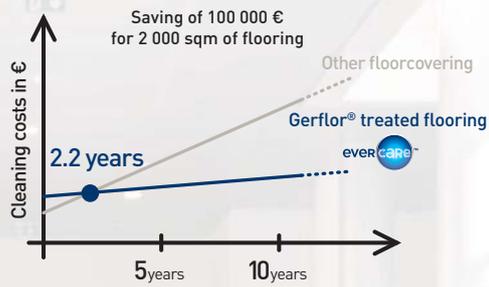

Using a neutral detergent or an eraser for marker	PREMIUM	Printed flooring / transparent wearlayer	Homogeneous flooring	Coated flooring	Rubber flooring
After 10 min →					
After 1h →					

Complete stain resistance table available on request

2 NO WAX REQUIRED

= SAVED WATER AND DETERGENT

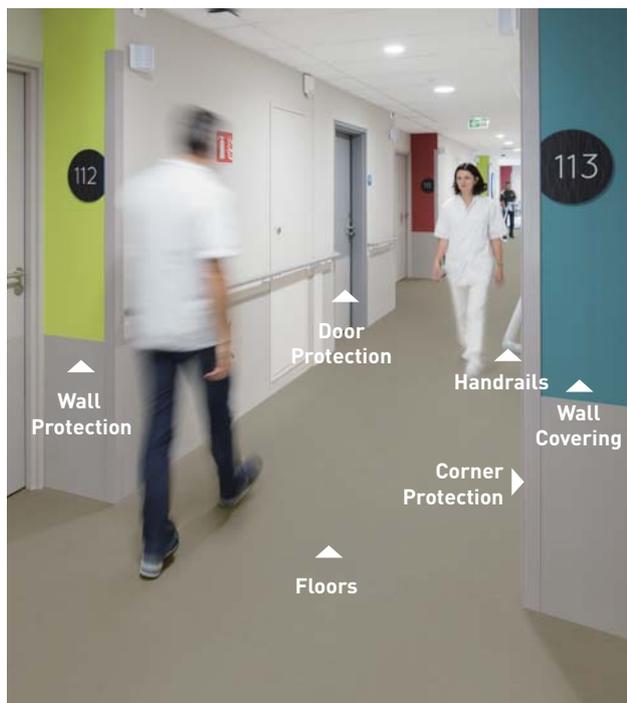

10x less cleaning products to maintain Gerflor floor coverings compared with a non-treated floorcovering.

3 Modern surface with a matt finish

Benefits: Enhanced Hygiene

Excellent anti-bacterial and anti-virus activity

Excellent Anti-bacterial activity

- Gerflor® PVC WALL & FLOORING products can inhibit 99.9% bacteria growth. (Comply with ISO 22196 = antibacterial activity on plastic and other non porous surfaces)
- DLW linoleum has natural anti-bacterial property

Excellent Anti-virus Property

- Gerflor surfaces have an anti viral activity / virucide efficiency.
- Gerflor surfaces contribute to lower the viral load and then, contribute to minimize the risk of contamination chain. (Comply with ISO21702 = anti-virus activity)

SPM Anti-bacterial handrails, wall/door/corner protection

- Research has shown that 75-90% of all hospital acquired infections are passed on by hand borne transmission. The majority of contamination collects at the junctions between handrail profiles and their finishing accessories. To avoid contamination, SPM handrails are fitted with abactericidal joint.

Perfect combination

- Hot welded for a perfect watertightness
- Gerflor® floor coverings and wall protection panels are welded together to provide perfect air tightness for greater hygiene.

Excellent disinfection resistance

Sterilization =

- to reach the ultimate level which is "0 microorganism"

Decontamination and disinfection =

- to eliminate or inhibit microorganisms
- **CAN ONLY BE EFFECTIVE AFTER CLEANING**

Cleaning =

- to remove all residues and dirt (organic or non-organic) from surfaces.
- To use detergents including surfactants which help dissolving the impurities and removing the biofilms containing the microorganisms.

Disinfection methods

Option 1: Apply disinfectant or active products

(84, Alcohols, H₂O₂, etc.)

- Manually
- Mechanically

Option 2:

With vapour (+80°C)

Gerflor® Floors & Walls comply with all these methods as long as product manufacturer recommendations are strictly followed.

Benefits: Enhanced Hygiene

▶ This standard proposes the **following risk class** reference standards:

RISK CLASS BY TYPE OF ACTIVITY

	ZONE 1 Minimal risk	ZONE 2 Moderate risk	ZONE 3 High risk	ZONE 4 Very high risk ⁽¹⁾
LOCATION / ACTIVITY	<ul style="list-style-type: none"> - Hospitalisation (Standard hospital room, hospital room for infectious patients) - Cutting stations - Macroscopy 	<ul style="list-style-type: none"> - Recovery room - Sterile medical device storage - ICU (Multipurpose room, neonatal and infectious patient intensive care, ICU movement areas) - Hospitalisation (ICU rooms, continuous monitoring rooms) - Radiopharmacy, packaging and storage zone - Operating theatres (Pre-op care rooms, post-theatre rooms, operating theatre corridors) 	<ul style="list-style-type: none"> - Hospitalisation (Haematology - outside protected units; organ transplant unit rooms; post-transplant unit rooms) - Interventional radiology - In vitro fertilisation - Operating theatres (multipurpose rooms, ENT and orthopaedics, arthroscopy, haemodynamics, digestive and visceral surgery, urology, cardiovascular surgery, neurosurgery, plastic, aesthetic and renewal surgery, obstetrics, gynaecology) 	<ul style="list-style-type: none"> - Hospitalisation (Burns units, protected units (haematology)) - Pharmacy (Cytostatic reconstitution), Production of parenteral solution - Operating theatres (Prosthetic orthopaedics, major burns operations, organ transplants)

[1] Some premises are rated "4a" which means that only the area under the unidirectional flow is considered to be compliant with the requirements for this class. Each facility must allocate a risk rating lower than or equal to this to the rest of the premises.

The particulate emission level required in Risk 4 zones is ISO 5.

GERFLOR's ULTRA CLEAN offer exceeds this requirement, with most tested products classified ISO 5 & ISO 4 & ISO 3.

GERFLOR® MEETS THE REQUIREMENTS OF CLEAN ROOM

To meet the very strict needs and regulations of these zones, Gerflor® has developed solutions that meet the various current standards, which have been tested and validated by:

GERFLOR® ULTRA CLEAN OFFER

INTERNAL AND EXTERNAL CORNERS

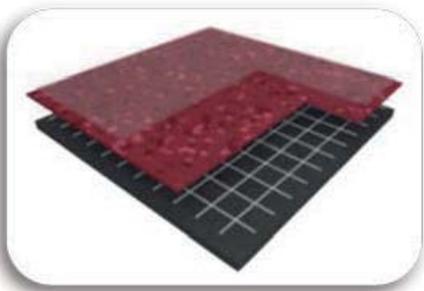

Benefits: Durability

Durable Floorings & Wall Coverings

Gerflor® flooring and wall covering have a high resistance to pressure point loading, whether STATIC (furniture and beds) or DYNAMIC (wheelchairs, walking frames and trolleys).

- Resistance to abrasion
- Long lasting color brightness
- Excellent dimensional stability

Take Premium as an example

- 100% PVC wearlayer, up to 1mm in thickness.
- Excellent Abrasion resistance, appearance remains after 4000rpm.
- No indentation mark
- No rolling mark

SPM Wall / Door / Corner Protection & Handrails

- Impact resistance and absorption from trolleys and wheelchairs, whatever the impact.
- Very suitable for use in rehabilitation centers

Benefits: Safety and Slip-resistance

Why Do We Need Safety Floorings In Hospitals?

Easy to slip, especially for wet areas such as...

- Toilet
- Shower Room
- Kitchen
- Corridor
- Ward
- ...

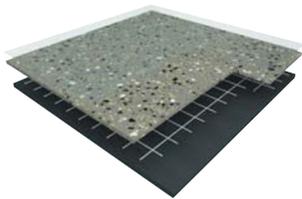

Extra Care for certain group of people like...

- Patients
- Old people
- Pregnant women
- Disabled people
- Kids
- ...

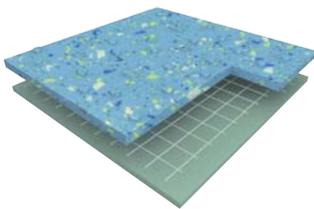

- TARASAFE is suitable for all areas with high traffic that requires slip-resistant, durable and hygienic conditions. This product is widely used in healthcare area.

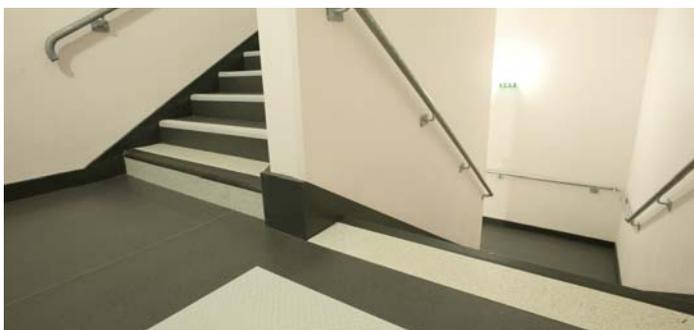

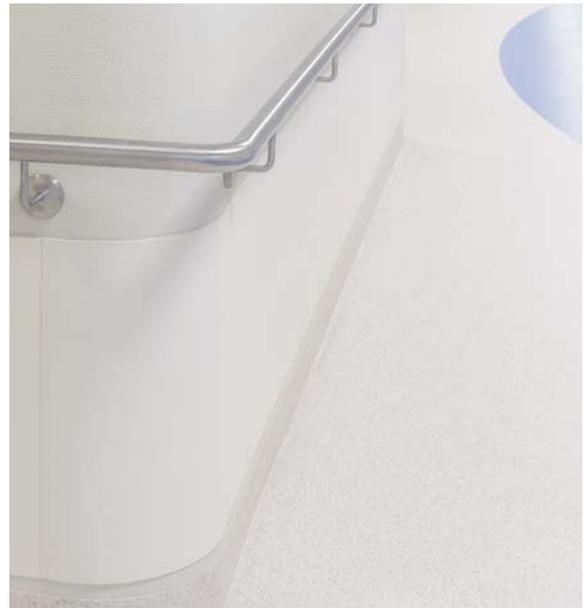

- Handrail provides safety support and assists with moving

TARASAFE Ultra/Geo/Super R10-R12

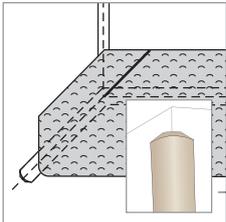

TARASAFE Ultra H2O R11

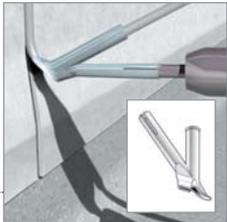

- High contrast of TARALAY stairs and various colors of SPM provide more visual safety

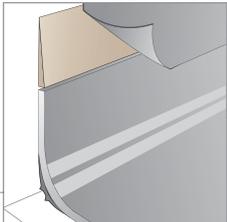

Taradouche Shower System

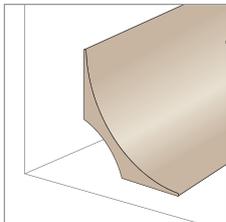

Cove former for internal wall angles CA 12 - H204

PVC drain with inox grid H090

Tarafoam: acoustic insulation sub-layer 997C 6792

Shower threshold - 0469

PVC SITAR / SITAR V Drains H112 / H113

The threshold has been developed in 3 colours - grey, beige and blue in order to answer to the specific requirement of Alzheimer units (no contrast).

- grey ●
- beige ○
- blue ●

Benefits: Comfort & Acoustic

Health and recovery of patients and staff

Unique foam sub-layer of Gerflor® can provide a comfortable and quiet environment for patients and doctors.

- Provide cushioning under foot, making feet comfortable
- Excellent sound absorption, up to 19dB (TARALAY IMPRESSION COMFORT Series)

Ease movement

Gerflor® compact and comfort floorings enables doctors and patients to move wheeled equipment and furniture very easily!

- Movements in all directions are easy and free.
- Excellent dynamic / static load resistance
- All Gerflor® PVC floorings are suitable for Automated Guided Vehicle Systems.

Benefits: Trendy Designs

WIDE PALETTE OF DECORS / COLORS

- More than 4,000 colors in a wide range of designs (wood, plain, marbled, pearlescent)
- Coordinated Compact & Comfort version
- Coordinated floors, walls and finishes

Public Areas

Public Area is a HEAVY TRAFFIC area, it requires high resistance to abrasion and scratch. Meanwhile, easy maintenance is also a key requirement for this area.

MAIN AREAS

- Waiting room
- Nurses station
- Registration area
- Pharmacy
- Corridor
- ...

PRODUCTS RECOMMENDATION

Flooring: Premium / Mipolam® ranges / Tarasafe /
Taralay® ranges(CPT/CFT) / DLW
Wall Covering: Mural ranges
SPM: Wall / Door / Corner / Handrail
Other Accessories

The area is mainly used for DIAGNOSIS, TREATMENT AND TESTING. Reagents such as iodine and eosin may be exposed during diagnosis and treatment process and in the lab as well. Therefore, excellent resistance to contamination and chemicals is required. During the testing process, many instruments and equipment will be used, some of which need excellent electrostatic discharge protection performance.

MAIN AREAS

- Consulting room
- Ultrasonography room
- Examination room
- Function diagnosis room
- Lab
- ...

PRODUCTS RECOMMENDATION

Flooring: Premium / Mipolam® ranges / ESD
Wall Covering: Mural ranges
SPM: Wall / Door / Corner / Handrail
Other Accessories

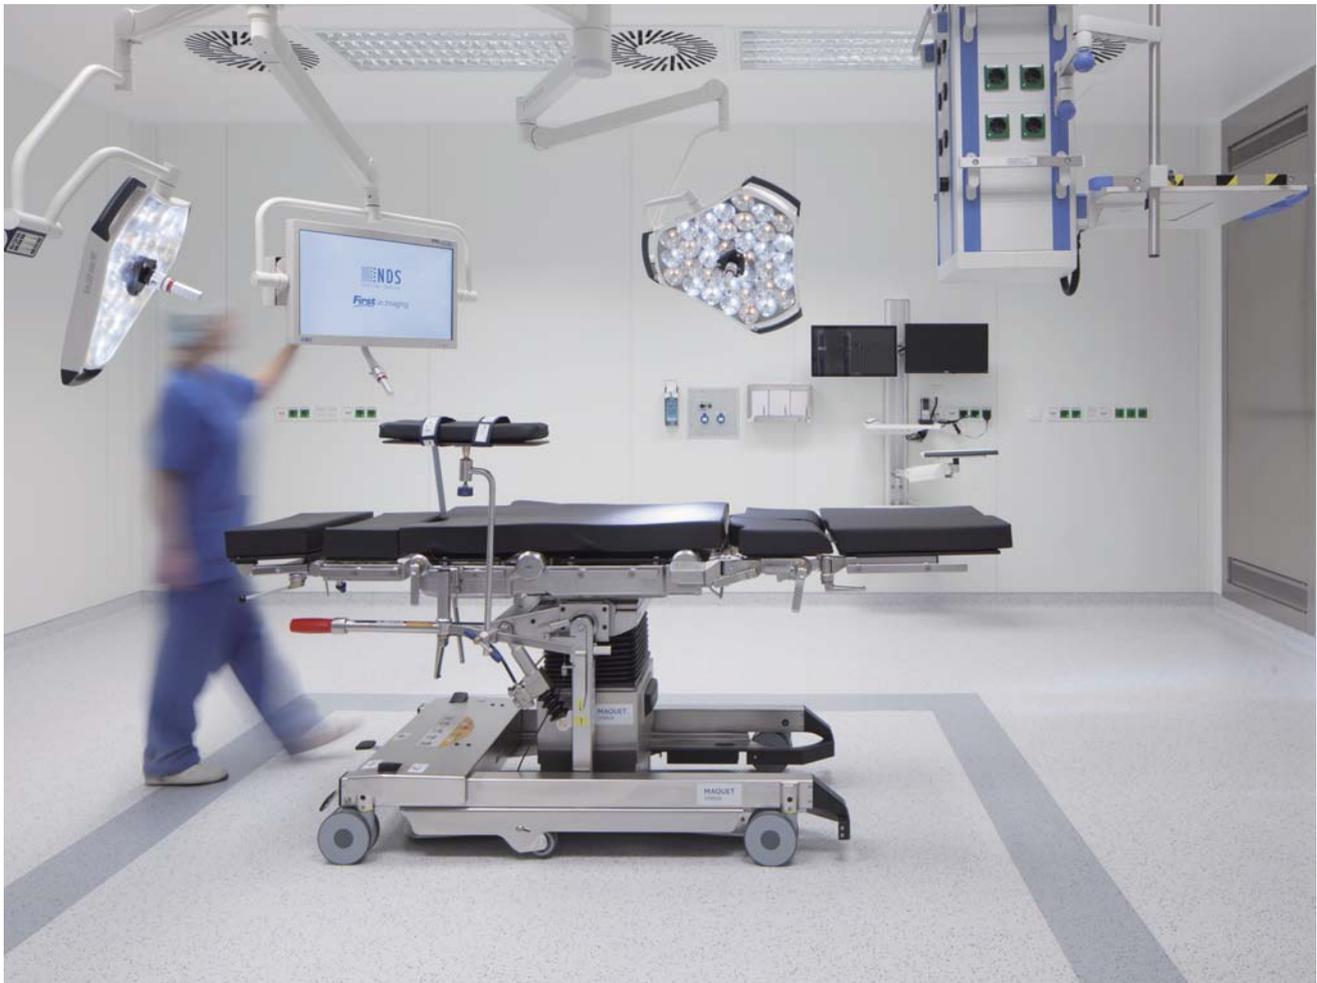

RADIOLOGY DEPARTMENT mainly has a lot of special radioactive equipments, such as X-ray, MRI, CT ... Some big hospitals also have big computer rooms. These equipments are very much in need of a floor with excellent electrostatic discharge protection. Gerflor® can provide you with a variety of choices with ESD rolls and tiles.

MAIN AREAS

- MRI scan
- X-ray
- CT
- IR
- ...

PRODUCTS RECOMMENDATION

Flooring: ESD / Mipolam® ranges / DLW
Wall Covering: Mural ranges
Other Accessories

This is THE MOST IMPORTANT AREA in the hospital. Often in need of a very clean environment, Gerflor® can offer products with clean room certificates. During operation process, reagents and blood will be exposed, so excellent resistance to stains is needed for this area. Many surgical devices generate charges and require excellent protection against static discharge.

MAIN AREAS

- Operation theatre
- ICU
- Sterilization rooms
- Isolation ward
- ...

PRODUCTS RECOMMENDATION

Flooring: Premium / Mipolam® ranges / ESD
Wall Covering: Mural Ultra
SPM: Wall / Door / Corner / Handrail
Other Accessories

Ward/Dormitory

Comfortable living environment, and warm color collection can bring a pleasant physical and mental experience. Gerflor® has THOUSANDS OF DESIGNS which will provide a lot of options for interior design.

MAIN AREAS

- Ward
- Staff lounge
- Dormitory

Recommended Products

► PREMIUM

The floor covering is made of a >1mm thick, pure vinyl homogeneous wear layer with no filler, incorporating very densely pressed coloured chips, with a mat finishing and without a transparent wear layer. It is available in 2 m wide sheet.

PREMIUM is treated with Evercare™, a surface treatment obtained by UV laser crosslinking. It ensures easy maintenance and eliminates permanently the need for acrylic emulsion (metallisation).

It avoids staining of chemical products used in healthcare like iodine alcohol, Betadine, eosin and anti-bacterial hand gel.

It is 100% compliant with REACH and composed of 40% of minerals and inexhaustible materials.

It is made with more than 50% recycled content ; 100% of which are carefully controlled and REACH compliant.

It does not contain any heavy metals, any formaldehydes and it is made with phthalate free plasticizers.

The product's emission rate of volatile organic compounds is <10 microgram / m³ (TVOC after 28 days – ISO 16000-6).

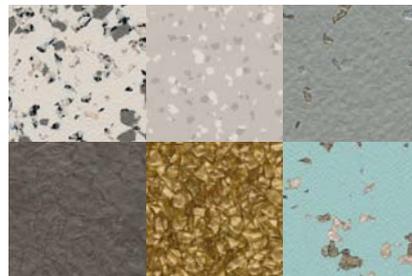

It is 100% recyclable.

PREMIUM COMPACT's compact backing is calendared, pressed and reinforced with a glass fibre grid yielding.

It offers a 8 dB sound insulation, an indentation resistance of 0.02 mm and a rolling heavy loads easiness.

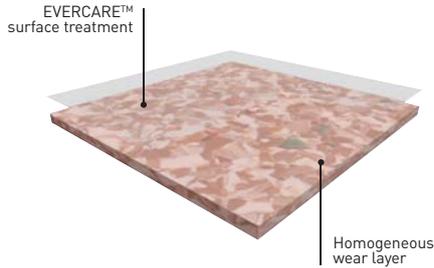

PREMIUM COMFORT contains a compact backing which is calendared, pressed and a Very High Density (VHD) foam backing. It is reinforced with a double glass fibre grid.

It offers a 17 dB (Metallica: 16 dB) sound insulation, an indentation resistance of 0.06 mm and a rolling heavy loads easiness.

Recommended Products

▶ MIPOLAM® AMBIANCE® ULTRA

MIPOLAM® AMBIANCE® ULTRA is a homogeneous pressed compacted floorcovering in sheet, with non-directional design, colour dyed as a raw mixture to ensure even color throughout the thickness and a matt finish. Its surface is densely compacted for improved wear and ease of maintenance.

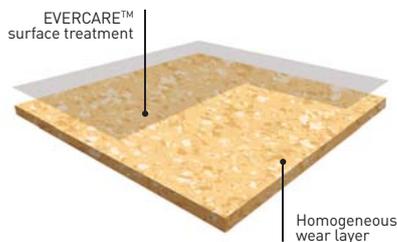

It is treated with Evercare™, the latest improvement in polyurethane surface treatment obtained by UV laser cross-linking. Evercare™ avoids staining of chemical products, like betadine, eosin, or anti-bacterial hand gel and increases the durability of the flooring. No wax for life!

MIPOLAM® AMBIANCE® ULTRA incorporates bacteriostatic and fungistatic actions. It is suitable for very heavy traffic areas.

MIPOLAM® AMBIANCE® ULTRA is available in a wide pallet of 50 classic and trendy colors.

▶ MIPOLAM® AFFINITY

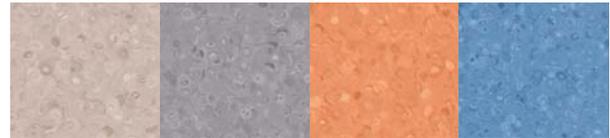

MIPOLAM® AFFINITY is a vinyl flooring homogeneous pressed in 2m sheets. The non-directional design with colour throughout the thickness is available in 50 references presenting a contrasted design & a matt finish. This flooring is recommended for collective buildings making skirtings easier, as well as angles and welding. The flooring is equipped with Evercare™, patented surface treatment obtained by UV laser cross-linking offering the best chemical resistance to the main products used in healthcare environments as betadine, eosin, hydro alcoholic solutions, making the maintenance easy and the floor long lasting. This treatment avoids applying any acrylic emulsion throughout the lifetime of the product. It is free of formaldehyde, heavy metals and CMR 1 & 2 or vPvB (very persistent and very bio accumulative) or PBT (persistent, bio-accumulative and toxic) and is REACH compliant. It is 100% phthalate free and recyclable. Its VOC emissions after 28 days (ISO 16000-6) are below detection levels (<10 microgram / m³) and this product is classified A+ (the best class). This flooring is antistatic (<2kV), its residual indentation is ≤ 0.02 mm to 150 minutes respecting EN ISO 24343-1. This flooring complies with EN ISO 10581 offering a Binder content Type I, which makes it suitable for heavy duty traffic areas.

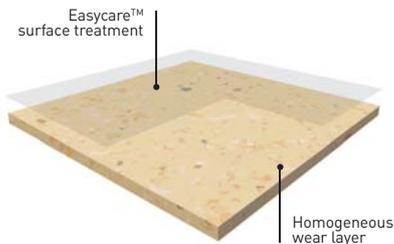

▶ MIPOLAM® CONCEPT™

MIPOLAM® CONCEPT™ is a flexible homogeneous pressed compacted floorcovering in sheet, with non-directional design color dyed as a raw mixture to ensure color throughout the thickness. Its surface is densely compacted for improved wear and ease of maintenance. It benefits from EASYCARE™ surface treatment with good resistance to chemicals to scuffing, and high resistance to scratches and staining. Easy to clean. No wax for life! It is suitable for heavy traffic areas. MIPOLAM® CONCEPT™ features bacteriostatic and fungistatic treatment.

▶ MIPOLAM® ATLAS®

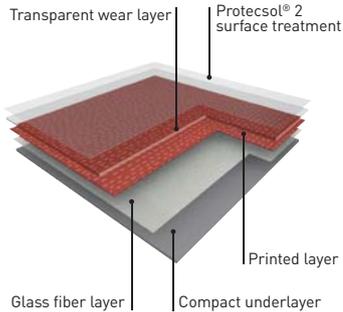

MIPOLAM® ATLAS® is a flexible homogeneous pressed compacted floorcovering in sheet, with non-directional design color dyed as a raw mixture to ensure color throughout the thickness. Its surface is densely compacted for improved wear and ease of maintenance. It benefits from EASYCARE™ surface treatment with good resistance to chemicals and to scuffing, and high resistance to scratches and staining. Easy to clean. No wax for life! MIPOLAM® ATLAS® features bacteriostatic and fungistatic treatments. The flooring complies with the EN 649 [34-43]. It is suitable for heavy traffic areas.

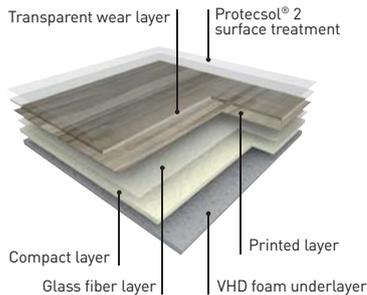

Recommended Products

TARALAY® IMPRESSION

*COMPACT series

*COMFORT series

TARALAY® IMPRESSION flooring is equipped with ProtecSol®2, patented surface treatment obtained by UV laser cross-linking offering the best chemical resistance to the main products used in healthcare environment as betadine, eosin, hydro alcoholic solutions, making the maintenance easy and the floor longlasting. This treatment avoids applying any acrylic emulsion throughout the lifetime of the product.

It is free of formaldehyde, heavy metals and CMR 1 & 2 or vPvB (very persistent and very bio accumulative) or PBT (persistent, bio-accumulative and toxic) and is 100% REACH compliant. Its VOC emissions after 28 days (ISO 16000-6) are below detection levels (<10 microgram / m³) and this product is classified A+ (the best class) and Floorscore® & M1 certified for indoor air quality. Taralay Impression has antibacterial efficacy (E.coli-S.aureus-MRSA) : >99% after 24 hours according to ISO 22196.

TARALAY® IMPRESSION COMPACT is a multi-layered vinyl floor covering, available in 2m wide sheet. The product comprises a compacted backing reinforced with a glass fibre and a printed design. It offers 8 dB sound insulation and an indentation resistance of ca. 0.03 mm.

TARALAY® IMPRESSION COMPACT 0,7 is protected by a transparent wear layer (0.70 mm thick).

TARALAY® IMPRESSION COMPACT PLUS 0,9 is protected by a transparent wear layer (0.90mm thick).

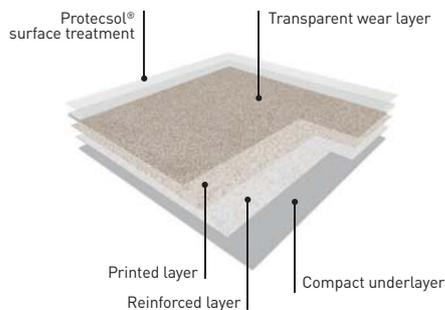

TARALAY® IMPRESSION COMFORT is an acoustic multi-layered vinyl floor covering, available in 2m wide sheet. The product comprises a Very High Density (VHD) foam backing reinforced with a glass fibre and a printed design. It offers 19 dB sound insulation and an indentation resistance of ca. 0.08 mm.

TARALAY® IMPRESSION COMFORT 0,65 is protected by a transparent wear layer (0.65 mm thick).

TARALAY® IMPRESSION COMFORT PLUS 0,9 that is protected by a transparent wear layer (0.90 mm thick).

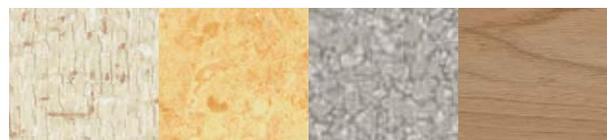

TARALAY® EMOTION

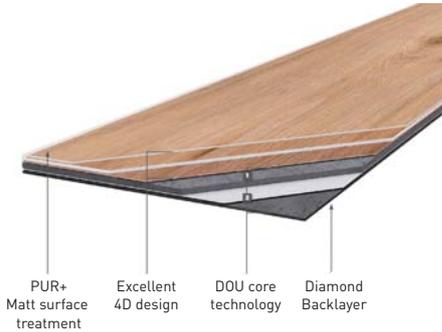

TARALAY® EMOTION is a multilayered compact vinyl floor covering, available in 2m width sheet. The product comprises a printed design protected by a transparent wear layer, and the compact backing with reinforced layer resists static and dynamic perforation under rolling loads and provides excellent dimensional stability.

TARALAY® EMOTION is treated with ProtecSol® surface treatment with excellent resistance to scratching, scuffing & easy cleaning. It has no DOP, no heavy-metal, no benzene, no formaldehyde & 100% compliant with REACH, which is friendly to health and environment, recommended for high traffic area in education, office, retail, hospital and institutional buildings.

▶ CREATION RANGES

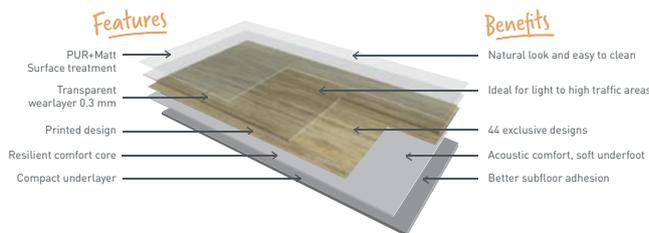

CREATION 30/50/70 is a synthetic, decorative, flexible, anti-static floorcovering available in tile or plank, with beveled edges, a design film and a Resilient Comfort Core to provide softness and comfort surface. PUR+ Matt surface treatment makes maintenance easier and provides good scratch resistance.

CREATION 30/50/70 is made with phthalate free plasticizers, except recycled content. It is 100% recyclable. It is REACH compliant. The product emission rate of organic compounds is < 10 microgram / m³ (TVOC <28 days ISO 16000-6)

CREATION 30/55/70 products include dry back ranges, CLIC ranges and loose lay ranges and series.

▶ SCALA® RANGES

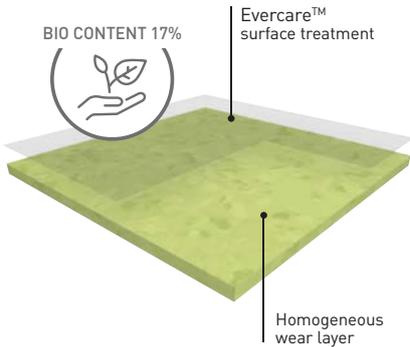

SCALA® products are decorative, flexible, anti-static floorings tiles and planks, with beveled edges. It is compressed and grained at high pressure. They are treated with PUR+ surface treatment providing good cleaning characteristics and resistance to scratching.

SCALA® is 100% recyclable and 100% REACH compliant. The product emission rate of organic compounds is < 10µg/m³ (TVOC <28 days ISO 16000-6).

4. Best indoor air quality: TVOC emission < 10µg/m³ after 28 days

*MIPOLAM® ROBUST EL7

MIPOLAM® TECHNIC EL5 / MIPOLAM EL5

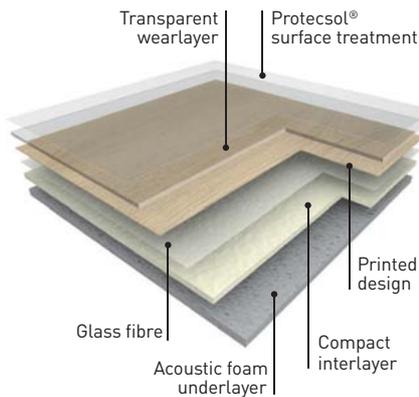

1. Permanent conductive flooring: $10^4 < Rt < 10^6$
2. Non-directional pattern design
3. Available in sheet and tile
4. Evercare™ surface treatment, no need for wax for life
5. Best indoor air quality: TVOC emission $< 10\mu\text{g}/\text{m}^3$ after 28 days

*MIPOLAM® TECHNIC EL5

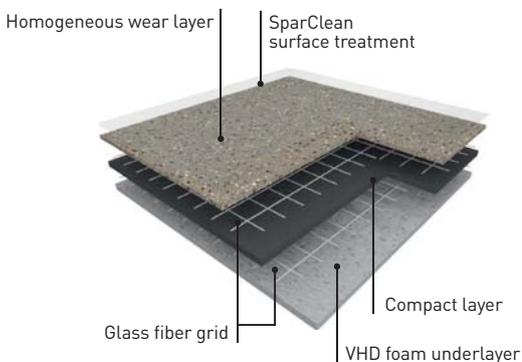

TARALAY® INITIAL

1. Innovativemodern pattern, leading flooring design trend
2. High resistance to indentation 0.10 mm (Comfort) and very good performance in sound insulation: 19 dB
3. ProtecSol® Surface Treatment (easy maintenance & no wax)
4. Ideal for high traffic areas (0.65 mm wear layer thickness)
5. Highest performance in TVOC emission < 10 microgram / m^3

TARASAFE® STANDARD / ULTRA & ULTRA COMFORT / ULTRA H2O

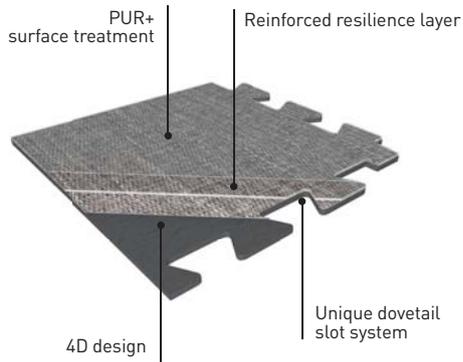

1. Dense concentration of deep inlaid anti slip particles throughout the wear layer => Enhanced and permanent slip performance R10
2. No carborundum, great to handle & cut
3. Mineral crystal particles bring innovative patterns and bright color
4. 100% recyclable product
5. TARASAFE® ULTRA & ULTRA COMFORT: SparClean® surface treatment, extreme resistance from soiling and staining and low maintenance cost
6. TARASAFE® ULTRA COMFORT: VHD foam backing, 16dB sound insulation
7. TARASAFE® ULTRA H2O: The specific embossing together with the mineral particles is ideal for barefoot or shod applications.

*TARASAFE® ULTRA COMFORT

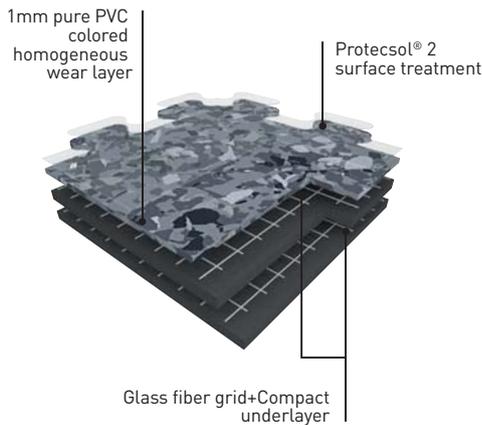

More Recommended Products

▶ CREATION 70 CONNECT

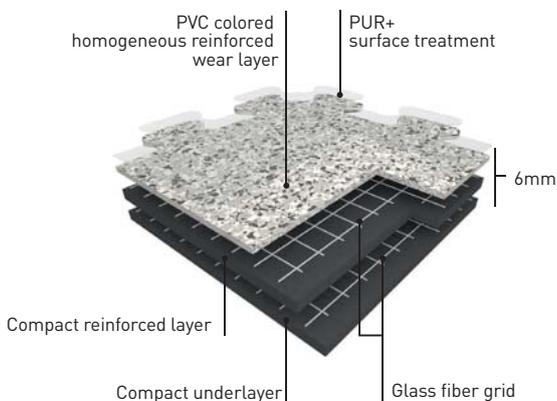

1. XL square tile
2. Exclusive construction "Resilient reinforced core", reinforced with glass particles for better stability
3. ProtecSol® surface treatment, easy to maintain
4. PUR+ Matt varnish: natural look and easy to clean

▶ ATTRACTION®

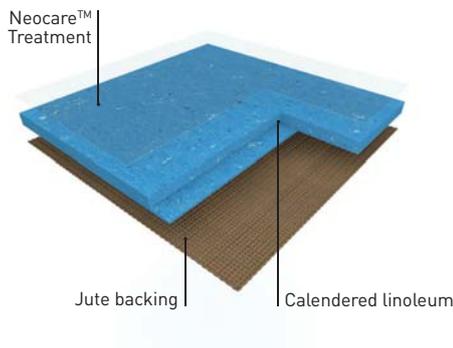

1. Easy renovation : looselay installation
2. No immobilisation of the premises = no loss of turnover
3. Resistance to traffic : 1mm wearlayer
4. Easy maintenance: ProtecSol® 2 surface treatment

▶ GTI MAX CONNECT

1. Easy renovation : looselay installation
2. No immobilisation of the production lines = no loss of turnover
3. High resistance to traffic : 2mm wearlayer
4. Easy maintenance : PUR+ surface treatment
5. Ideal colour palett to create zoning and safety area

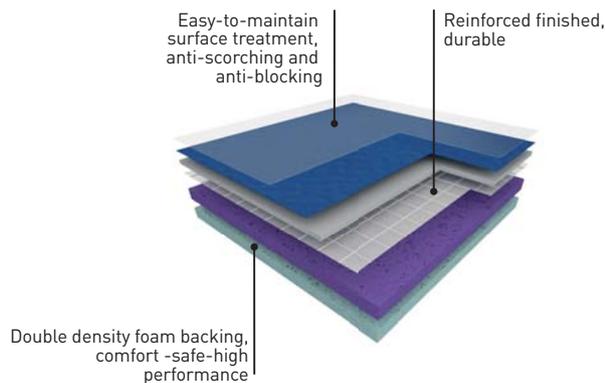

▶ **DLW MARMORETTE® / COLORETTE / UNI WALTON**

- . Natural linoleum flooring
- . 98% biosourced or mineral based materials
- . Product certified by many eco-labels,
- . The widest range in the market

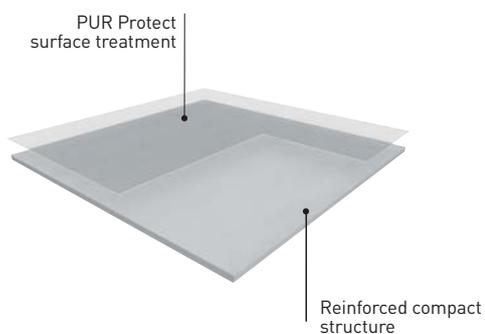

*DLW MARMORETTE linoleum flooring

▶ **TARAFLEX® INDOOR SPORTS FLOORING**

1. Taraflex® Multi purposed floorings provide levels of comfort and safety suited to all types of sports and leisure activities.
2. P1 category: 25% to 35% shock absorption
3. Ultra-realistic wood design

▶ **MURAL PLUS / MURAL ULTRA WALL COVERING**

1. Excellent performances: resistance to impact
2. B-s2,d0 fire classification
3. PUR Protect surface treatment & washable => hygiene
4. A durable installation perfectly waterproof
5. 100% recyclable

*MURAL PLUS WALL COVERING
